What to Take? – Puzzle (Younger Elementary)

Read Mark 6:7-13, CEB. Then circle the things Jesus told his disciples to take on their journey. Put an X through the things they were not supposed to take.

Multiplying Disciples – Puzzle (Older Elementary)

Jesus chose 12 disciples to spread his message of God's love to the world. But how could just 12 people reach the whole world?

Think about this. What if those 12 people found 12 new disciples? Now how many disciples would there be?

$12 \times 12 =$

Now what if those disciples found 12 new disciples? Take the answer from above and multiply it by 12. Use a calculator if you wish.

$\times 12 =$

Let's keep going! Take that answer and multiply by 12. Continue in this way to find out how many disciples could be made in a fairly short time.

$\times 12 =$

$\times 12 =$

Number of disciples:

$\times 12 =$

Mark 6:7-13

Jesus had many followers. They were his disciples, his students.

They listened to what he had to say. They helped Jesus as he traveled and healed people.

Jesus called his students together, his twelve disciples. He told them, "Go and share the good news of God's kingdom with everyone. I am sending you out in pairs.

You will be healing people and telling people all about God."

As the disciples were getting ready to go in pairs, Jesus gave them more instructions.

"Don't take much with you, just your walking stick and your sandals. No need to

take bread, or bags, or extra clothes. Stay where you are welcomed to stay. If you are not welcome, shake the dust off your shoes, and move on."

The disciples followed Jesus' instructions. They told people all about God's kingdom. They healed people who were sick.

FAMILY DEVOTION

BIBLE PASSAGE: MATTHEW 9:35

This week, find a service project that your family can do together. Here are a few suggestions to get you started:

- Volunteer in a food bank or soup kitchen.
- Pick up litter in a favorite park.
- Serve together in your church's nursery.
- Visit an elderly neighbor and find out if they have needs you can meet.
